## Adel Kalemcilik

Adel Kalemcilik is the first name that comes to mind when talking of stationery in Turkey. Its journey started in 1969 in Kartal, Istanbul. Pencils and stationery products, produced by Adel Kalemcilik have been recognized for high quality across Turkey, and “left a mark” on the education of many generations.

In 1995, Adel Kalemcilik turned its collaboration with the world’s oldest stationery brand Faber-Castell, into an official partnership. This partnership has been a strong example of Adel Kalemcilik’s continuous investments and its commitment to add value to Turkey and to generations to come.

In 2015, Adel Kalemcilik moved its factory to Çayırova, into a 36.000 square meter plant, where wood-cased pencils, coloring pencils, copying pencils, ballpoint pens, ink pens, markers, felt-tip pens, oil crayons, watercolor paints, erasers, pencil sharpeners, finger paints, play doughs and gouache paints are produced.

In July 2015, Adel Kalemcilik carried its broad experience in retail and wide dealer network into a new playground. In culmination of its rigorous efforts and market research of over two years, the company penetrated the toy market with leading brands of this industry joining its own Adeland. In addition to international brands in our portfolio, as of 2018 Adel carries the license rights of the cartoon series for both stationery and toy products of TRT- the national TV network which also broadcasts to 190 countries around the World.

Today Adel Kalemcilik, holding 2 best known brands of the Turkish stationery market, is the biggest manufacturer of Turkey and the region in terms of output and product range. Adel exports to an approximate 40 countries.

Holding a legacy longer than 50 years, Adel Kalemcilik offers a wide range of approximately 3.800 products under Faber-Castell, Adel, Graf von Faber-Castell, Adeland, Atlas, Max, Panfix and Citizen brands, some of which are produced locally and some imported. Additionally, Adel Kalemcilik is an active player in the toy industry, where Adel Kalemcilik’s own toy brand Adeland and many forthcoming licensed toy brands are presented to the consumers.

Adel puts a premium on product safety and quality, by adopting the motto of “we do not sell a single product that we would not buy for our own children”, while conducting more than 10 thousand product safety tests and 30 thousand quality tests per year. Adel Kalemcilik has taken ultimate precautions regarding the Covid-19 Pandemic to protect the health of its employees and consumers. Having submitted to all the conditions In TSE’s (Turkish Standards’ Institute) “Manual for the Covid-19 Hygiene, Infection Prevention and Control”, Adel Kalemcilik was inspected in all its units by TSE and became the first stationery production company in Turkey to receive the TSE Covid-19 Safe Production Certificate.

Adel Kalemcilik, bound by its mission to provide high quality and reliable products at affordable prices to its customers, regularly monitors the current situation in production procedures to create alternative solutions for better and faster processes. It aims to increase productivity on design and quality by using its labour force correctly and effectively.

Since day one, Adel Kalemcilik strives to benefit its stakeholders as well as the community. Placing the “goodness” at the heart of its operations, Adel Kalemcilik sponsors and carries out a spate of social responsibility projects to support creativity in education.

Since 1996, Adel is listed at Borsa İstanbul (Istanbul Stock Exchange) with 27.71 percent of its shares.

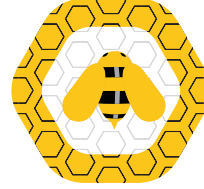

## OUR VISION

Take part in the life of those who want to add shape and color to their dreams and leave a mark.

## OUR MISSION

Be an organization delivering quality and innovative products to their customers, responsible for the society and environment, and committed to ethics.

## OUR VALUES

İZ BIRAK

Kalitenle  
İZ BIRAK

### QUALITY:

Boasts competence, reliability, behavioral quality; an annual average of 10.000 product safety tests and 30.000 product quality tests, ISO 9001 Quality Certificate, ISO 14001 Environmental Management, ISO 45001 Occupational Health and Safety Management, ISO 50001 Energy Management and ISO 27001 Information Security Management certificate, TSI Covid-19 Safe Production Certificate, Zero Waste Certificate, Ethical Compliance Certificate

Yenilikçiliğınle  
İZ BIRAK

### INNOVATION:

Başarırna Tutkunla  
İZ BIRAK

### AMBITION FOR SUCCESS:

Self-motivating, competitive, keen for continuous improvement, goal-oriented, teamwork, common sense, enterprising, responsible, accountable

## GOODNESS:

In line with the United Nations 2030 Sustainable Development Goals, we carry out our corporate social responsibility projects that we prioritize in the fields of Quality Education and Climate Action, which will benefit the society, under our Goodness Tree Corporate Social Responsibility brand.

- Since 2021, in the field of Quality Education; we have implemented many projects in line with our goal of becoming "The Firm Consulted for Education", such as Creative Child Creative Brain training workshops, School Activity Team, Teachers Who Leave a Mark Online Platform, and content sponsorship on EBA. By the beginning of 2020, we have focused our work on the pre-school period, which is the most critical period of child development. In 2021, seeing the need to support the development of vocabulary and therefore mental development of preschool children, we took action to prepare children for a bright future and launched the 1500Kelime.com Platform.

- Simultaneously, we have been providing stationery aid to children in need in line with our collaborations with various non-profit organizations since 2016 with the Goodness Tree, in order to support quality education in our country. To date, we have supported the education and training needs of hundreds of thousands of children and over 12 thousand children since the beginning of the pandemic.

We also continue our work in the field of Climate Action unceasingly:

- o With our Goodness Tree Forest project, which we started on the 100th anniversary of April 23, National Sovereignty and Children's Day, we have contributed to the transfer of forests to future generations by throwing 95,000 seeds in Ankara and Mersin.

- o We always attach great importance to environmental protection and sustainability in our production facility. In this context, we use rain water for garden irrigation and meet half of the total energy need of the facility with renewable energy by utilizing wood flour from the production of wood-cased pencils.

- o In order to prevent the depletion of the world's resources, we produce our wood-cased products only from FSC® Certified trees grown only for industrial use. Thus, we contribute to the transfer of forests to future generations by investing in the future and nature.

## FSC® Certification

FSC® (Forest Stewardship Council) is an independent, non-profit, non-governmental organization that promotes responsible forest management around the world. Through a rigorous certification system, it provides standardization, brand assurance and accreditation services that are recognized by the international framework for companies, organizations and communities involved in responsible forestry.

The FSC® forest certification program contributes to the development of responsible forestry practices worldwide.

FSC® certification ensures that products come from responsibly managed forests that provide environmental, social and economic benefits.

## Why do we use FSC® Certification?

- FSC® standards are globally recognized as the highest level of social and environmental standards for forestry.
- Certification bodies are also subject to regular testing for uncompromised and consistent implementation of FSC® rules and procedures.
- There is a tracking system that allows the FSC® certified tree to be tracked through the production chain to the final labeled product.
- FSC® is the only standard setting organization in the field of responsible forest management, backed by global environmental organizations such as WWF and Greenpeace, and recognized internationally.
- FSC® is represented in more than 50 countries around the world.

The mark of  
responsible forestry

Only industrial  
tree grown trees are used.

## PRODUCT SAFETY

---

All products of ADEL that are classified as toys comply with Toy Safety Regulation (EN-71 standards, Phthalate, PAH and other testst), and they have CE certificates approved by SGS which is a world-wide accredited laboratory.

All other products have been also tested by SGS and confirmed to be safe for human health.

An annual average of 10.000 product safety tests and 30.000 product quality tests are conducted yearly.
