2023 CATALOGUE

2023 CATALOGUE

Adel Kalemcilik

Adel Kalemcilik is the first name that comes to mind when talking of stationery in Turkey. Its journey started in 1969 in Kartal, Istanbul. Pencils and stationery products, produced by Adel Kalemcilik have been recognized for high quality across Turkey, and “left a mark” on the education of many generations.

In 1995, Adel Kalemcilik turned its collaboration with the world’s oldest stationery brand Faber-Castell, into an official partnership. This partnership has been a strong example of Adel Kalemcilik’s continuous investments and its commitment to add value to Turkey and to generations to come.

In 2015, Adel Kalemcilik moved its factory to Çayırova, into a 36.000 square meter plant, where wood-cased pencils, coloring pencils, copying pencils, ballpoint pens, ink pens, markers, felt-tip pens, oil crayons, watercolor paints, erasers, pencil sharpeners, finger paints, play doughs and gouache paints are produced.

Today Adel Kalemcilik, holding 2 best known brands of the Turkish stationery market, is the biggest stationery manufacturer of Turkey and the region, in terms of output and product range. Adel exports to an approximate 40 countries.

Holding a legacy longer than 50 years, Adel Kalemcilik offers a wide range of approximately 3.800 products under Faber-Castell, Adel, Graf von Faber-Castell, Atlas, Max, Panfix and Citizen brands, some of which are produced locally and some imported.

Adel puts a premium on product safety and quality, by adopting the motto of “we do not sell a single product that we would not buy for our own children”, while conducting more than 10 thousand product safety tests and 30 thousand quality tests per year.

Since its establishment, Adel Kalemcilik has carried out all its activities with the aim of providing benefit to its stakeholders and society, and by supporting sustainable projects. Adel Kalemcilik, which prioritizes the fields of Quality Education and Climate Action, which are among the United Nations 2030 Sustainable Development Goals, carries out many sponsorship and social responsibility projects under the Goodness Tree corporate social responsibility brand with the “goodness” value in its essence.

Since 1996, Adel is listed at Borsa İstanbul (Istanbul Stock Exchange) with 27.71 percent of its shares.

OUR VISION

Take part in the life of those who want to add shape and color to their dreams and leave a mark.

OUR MISSION

Be an organization delivering quality and innovative products to their customers, responsible for the society and environment, and committed to ethics.

OUR VALUES

QUALITY:

Boasts competence, reliability, behavioral quality; an annual average of 10.000 product safety tests and 30.000 product quality tests, ISO 9001 Quality Certificate, ISO 14001 Environmental Management, ISO 45001 Occupational Health and Safety Management, ISO 50001 Energy Management and ISO 27001 Information Security Management certificate, Zero Waste Certificate, BSCI Compliance Certificate

INNOVATION:

A creative, pioneer, enterprising, pragmatical, research-oriented company that moves with the times, stays open to changes and development, keeps up with technological trends, and realizes the firsts and novelties of stationery by designing patented manufacturing machines, awarded the most innovative company seven years in a row.

AMBITION FOR SUCCESS:

Self-motivating, competitive, keen for continuous improvement, goal-oriented, teamwork, common sense, enterprising, responsible, accountable.

GOODNESS:

In line with the United Nations 2030 Sustainable Development Goals, we carry out our corporate social responsibility projects, which we prioritize in the fields of Quality Education and Climate Action, and which will benefit the society, under our Goodness Tree Corporate Social Responsibility brand.

In the field of Quality Education since 2012;

We have been carrying out many projects such as Creative Child Creative Brain training workshops in cooperation with ÖRAV, and İz Birakan Öğretmenler Teachers' Platform, in line with our goal of becoming an "Advisory Company in Education". Since the beginning of 2020 when the pandemic started and education and training underwent a great change, we focused on pre-school period, which is the most critical time of children's development. In 2021, seeing the need to support the development of vocabulary and therefore mental development of preschool children, we took action to prepare children for a brighter future and launched the 1500Kelime.com Platform. According to the results of the project activity research, 1500Kelime.com Platform was recommended by 95% of the teachers who experienced it. It also received a total of 11 awards from national and international prestigious sectoral organizations in 2022.

Simultaneously, we have been providing stationery aid to children in need in line with our collaborations with various non-profit organizations since 2016, under our corporate social responsibility brand, Goodness Tree in order to support quality education in our country. To date, we have supported the education and learning needs of hundreds of thousands of children through our Goodness Tree program.

We also continue our work in the field of Climate Action unceasingly:

With our Goodness Tree Forest project, which we started on the 100th anniversary of April 23 National Sovereignty and Children's Day, we contribute to the transfer of forests to future generations.

We always attach great importance to environmental protection and sustainability in our production facility. In this context, we use rain water for garden irrigation and meet half of the total energy need of the facility with renewable energy by utilizing the sawdust from the production of wood-cased pencils.

In order to prevent the depletion of the world's resources, we produce our wood-walled products only from FSC® Certified trees grown for industrial use. Thus, we contribute to the transfer of forests to future generations by investing in the future and nature.

FSC® Certification

FSC® (Forest Stewardship Council) is an independent, non-profit, non-governmental organization that promotes responsible forest management around the world. Through a rigorous certification system, it provides standardization, brand assurance and accreditation services that are recognized by the international framework for companies, organizations and communities involved in responsible forestry.

The FSC® forest certification program contributes to the development of responsible forestry practices worldwide.

FSC® certification ensures that products come from responsibly managed forests that provide environmental, social and economic benefits.

Why do we use FSC® Certification?

- FSC® standards are globally recognized as the highest level of social and environmental standards for forestry.
- Certification bodies are also subject to regular testing for uncompromised and consistent implementation of FSC® rules and procedures.
- There is a tracking system that allows the FSC® certified tree to be tracked through the production chain to the final labeled product.
- FSC® is the only standard setting organization in the field of responsible forest management, backed by global environmental organizations such as WWF and Greenpeace, and recognized internationally.
- FSC® is represented in more than 50 countries around the world.

The mark of responsible forestry

Only industrial tree grown trees are used.

PRODUCT SAFETY

All products of ADEL that are classified as toys comply with Toy Safety Regulation (EN-71 standards, Phthalate, PAH and other testst), and they have CE certificates approved by SGS which is a world-wide accredited laboratory.

All other products have been also tested by SGS and confirmed to be safe for human health.

An annual average of 10.000 product safety tests and 30.000 product quality tests are conducted yearly.
